

# Site Management Safety Training Scheme (SMSTS)

Awarding body: CITB

Duration: 5 days

## Aimed at

This course is suitable for all site managers.

## Course description & subjects covered

The Site Managers Safety Training Scheme has become the minimum requirement for a site manager to hold before even setting foot on site. The course has been designed by people who have had, and continue to have, on site experience as managers. Because of this, the course flows naturally and provides the delegates with all the skills they require to effectively manage the safety aspects of a construction site.

### During this course, you will cover the following subjects:

- The Health and Safety at Work Act
- Risk Assessments/Method Statements (RAMS)
- Behavioural safety
- Electricity
- Working at Height
- Demolition
- Construction Design and Management (CDM) Regulations 2015
- Recent changes in accepted working practices
- Management of Occupational Health
- Excavations
- Scaffolding
- Confined Spaces

## Assessment

This course includes a 25 question multiple-choice exam and a written assessment.

## Entry requirements

Delegates should be competent in English, ESW Level 1 in Communication is also recommended.

## Candidates required to provide

You will need to provide your NI number and a valid form of ID.

## Cost

£495.00
