Business and International Services
Gwasanaethau Busnes a Rhyngwladol

Alcumus®
Safer, Healthier, Stronger

Duration: 1 day

Aimed at:

This course is designed for people assigned to implement a QMS practically ie: Quality Managers, Consultants or any member of staff who will be involved in the implementation.

Course description & subjects covered:

This one day course will give an overview of a QMS and the requirements for implementation. The course has been designed to give learners a better understanding of what a Quality Management System is and how it can help a business, the basic registration process, where to get help and information and the tools used to meet the requirements. It also helps the learner attain the skills to be able to implement an effective QMS, be able to describe the purpose of a QMS, be able to explain the purpose and intent of ISO 9001 and be able to describe the requirements of ISO 9001.

Subjects covered:

- Why have a standard at all and why a Quality Management Standard?
- How a QMS can enhance an organisation
- Control of Processes
- The PDCA Cycle
- The effect on an organisation
- Certification to ISO 9001:2015
- 7 Principles of Quality
- The Process Model
- Benefits of a Quality Management System
- ISO 9001:2015 standard
