

Industrial Counterbalanced Lift Truck

In Partnership with The Construction Hub Academy

Available Levels: Novice, Refresher & Experienced Test

Duration: Up to 5 days

Aimed at

This course is aimed at individuals operating industrial counterbalanced forklift trucks. You will learn how to operate an industrial counterbalanced forklift truck safely and productively.

Course description & subjects covered

By the end of the course, delegates will have the knowledge to be able to design safe lifting plans that are compliant with the law, and take into account all health and safety requirements on site.

During this course, you will cover the following units:

- Identify weights and centres of gravity for various types of loads and specify appropriate lifting accessories for various types of load
- Demonstrate and illustrate different types of communication methods for lifting purposes and state
- Explain the importance of completing a reflective report on a lifting operation
- Identify and demonstrate how to and plan an area with exclusion zones for diverse lifting operations identifying any proximity/underground hazards from supplied plans and drawings
- Identify and plan an area with exclusion zones for diverse lifting operations identifying safe access and egress before, during and after any lifting operation
- Explain and identify the requirements for safe site access and egress for different types of lifting equipment
- Demonstrate how to construct a safe system of work by producing risk assessments, method statements and lift plans with information supplied
- Prepare and explain lift plan information to all personnel involved in lifting operations
- Specify and explain positioning of the crane and load, identifying limiting factors and immovable obstructions that must be considered
- Identify and explain how environmental factors outside the lift zone but within the surrounding area can effect planned lifting operations and the possible outcomes

Assessment

This course is assessed through an exam.

Entry requirements

Whilst there are no formal entry requirements for this course, a good level of verbal and written English would be beneficial to complete the assessments. You should also hold a level of management responsibility

Cost

Fully funded through PLA Funding*
