

Aimed at:

This qualification is aimed towards learners achieving a formal qualification that reflects their knowledge, understanding and competence of working as a health and safety practitioner.

Course description & subjects covered:

This qualification will provide learners with the formal qualification that reflects their knowledge, understanding and competence of working as a health and safety practitioner. This method of learning is ideally suited for those looking to balance technical studies with an existing role, and will provide recognition of skills and experience that have been developed within industry.

Each learner is required to produce an online portfolio of evidence which demonstrates their achievement of all the learning outcomes and assessment criteria for the units detailed below:

Mandatory Units:

- Ensure responsibility for actions to reduce risks to health and safety
- Develop procedures to safely control work operations
- Monitor procedures to safely control work operations
- Promote a culture of health and safety in the workplace
- Conduct a health and safety risk assessment of the workplace

**Site
Audit
Services**

Optional Units - Minimum of 2

- Investigate and evaluate health and safety incidents and complaints in the workplace
- Make sure actions in the workplace aim to protect the environment
- Review health and safety procedures in the workplace
- Supervise the health, safety and welfare of a learner in the workplace

Entry requirements:

Whilst there are no formal entry requirements for this course, an initial assessment will be conducted with reference to skills and knowledge, to plan a tailored process of learning.
