

Award in the Requirements for the Installation of Electric Vehicle Charging Points

Level: 3

Coleg y
Cymoedd
Business and International Services
Gwasanaethau Busnes a Rhyngwladol

Awarding body: EAL

Duration: 1 day

Aimed at:

This course is suitable for electricians and designers who wish to gain an understanding of the requirements for electrical vehicle charging equipment installations.

Course description & subjects covered:

This qualification will provide you with an understanding of the application of the IET Code of Practice for Electric Vehicle Charging Equipment Installation. It provides a facility for individuals working in the electro-technical sector to develop their understanding of the installation of electric vehicles (EV).

Entry requirements:

Learners must be at least 18 years old. Learners must be conversant with the relevant wiring regulations, and initial verification and commissioning. This can be demonstrated by the learner holding relevant qualifications in BS 7671, and inspecting and testing. Learners must have the minimum levels of literacy and numeracy to complete the learning outcomes and assessments.

Assessment:

This course is assessed through an on-screen multiple-choice, 25 question, exam. This qualification is graded pass or fail only.

Cost:

£275.00
