

Aimed at

The CITB SEATS (Site Environmental Awareness Training Scheme) is a one-day course, aimed at providing students with an introduction to environmental considerations to be taken on construction sites.

This course is designed to meet the basic environmental knowledge that the sub-contract chain are required to prove to major contractors.

Course Objectives

At the end of the course, students will be able to:

- Understand the need to protect the environment
- Implement environmental management systems into the management of the site
- Have an understanding of the impact archaeology and heritage can have on a site
- Identify the principles of the good neighbour initiative
- Appreciate the need to be a responsible contractor

Course Content

- Legislation, roles and responsibilities
- Environmental management systems
- Ecology
- Contaminated land
- Waste management
- Pollution prevention and water management
- Nuisance
- Archaeology and heritage

Assessment

To obtain certification students must pass a 30 minute exam consisting of 25 multiple-choice questions, selected by CITB. The pass mark is 72% (18 out of 25). Students are allowed to refer to the course book for the final 10 minutes of the exam.

Your certification upon successful completion of this course will be valid for 5 years. To remain certified in this area, you will need to take a refresher course before the expiry date on your certificate.

Entry requirements

There are no formal entry requirements for this course.

Cost

£180.00
