

Awarding Body: City & Guilds

Aimed at

This qualification is suitable for learners looking to progress from the City & Guilds 2365 Level 2, and is the next step towards becoming a qualified electrician. It includes a more advanced knowledge of electrical science, inspection and testing procedures, fault diagnosis and rectification, and installation design.

The theory content of this qualification will be delivered online, and the practical elements at the Trydan Training centre on selected weekends.

Course Progression

It is recommended that during or on completion of the level 3 2365 diploma you are working in the electrical industry, either as an electricians mate or electrical provider. With relevant experience and dependant on the work you do, you may progress onto the NVQ3.

Assessment

You will be assessed throughout the course by online exams, written assignments and practical assessments

Entry requirements

Learners will need to have completed the City & Guilds 2365 Level 2 Diploma.

Cost

£2600.00*
